### **DETAILED ACTION**

1. Claims 1-16 are pending in this application.

#### ***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 1-16 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claim 1 is a system, which does not have physical components representing the system, wherein the system requires the physical components in conjunction the functionality of the method performed by the system. In addition, the system of claim 1 is rather a method claim and the software can also be formed on papers.

The depended claims 2-11 are rejected under the same reason as to claim 1.

Claim 12 is also a method claim which does not require any system to be performed wherein the method can be formed on paper.

The depended claims 13-16 are rejected under the same reason as to claim 12.
